Assesses & monitors
your sleep

Automatic upload
of data via wireless
technology

The Medicare LifeSense® Activity Monitor is a fitness wearable from the LifeSense® diagnostic range. It gives you insight into your daily activity and fitness levels by tracking your steps, calories burned, distance as well as time. It is compatible with the Medicare LifeSense® App where you can track your data and measure your progress over time.

FEATURES

- Multi-function: Measures steps, calories, distance and time.
- Automatic upload of data to a smartphone or tablet via wireless technology.
- Memory for 7 days measurement data.
- Data recorded every 5 minutes.
- Digital sensor for accurate measurements.
- Accuracy: $\pm 3\%$ of reading.
- 12/24 hour clock.
- Backlit LCD display.
- Water resistant.
- 3 strap colours as standard.

RECOMMENDED USE:

For health management & monitoring.
