

## How to Install a new Probe Cover.

- ⊗ Always use a clean, undamaged and new probe cover.  
Be sure ear canal is clean. (Note: ⊗ “Do not reuse” )

(1) Attach the probe cover to the connection ring.

**\*\* Make sure to place the connection ring over the smooth side of the probe cover as the following drawing.**

- (2) Align the center of probe cover with the center of probe.  
(3) Push the connection ring until the click sound. This means the probe cover has been firmed tightly.

 **Warning: Keep the probe covers and connection ring away from children.**
