

Ultimate Patella Knee Stabiliser

Recommended for iliotibial syndrome, runners knee, patella tendonitis, arthritis & quad mis-alignment

ULTIMATE

The multi-purpose knee strap uses a combination of upper, lower and side compression to combat pain and discomfort in the knee.

The contoured design minimises bunching behind the knee for comfortable all day support.

Lined with breathable fabric which moves moisture away from your body keeping you cool and comfortable.

The Ultimate Support Range uses AIRFLEX Technology to facilitate faster recovery thanks to its therapeutic properties. AIRFLEX is an ultimate breathable material that provides the optimal level of compression and heat retention to help improve blood circulation and reduce pain.
