

Essential Beige Elbow Support

Recommended for minor sprains & strains
or relief from stiff, arthritic elbows

ESSENTIAL

Provides mild support and uniform compression for injured elbows.

Lightweight, breathable and durable support.

Designed for comfort without restricting movement.

360° stretch prevents slippage and ensures a proper fit.

Designed for comfort without restricting movement. This enhanced lightweight, breathable, durable support provides compression whilst helping to prevent re-injury. It has an ergonomic design that provides mild support and uniform compression with 360° stretch to ensure a proper fit.
